

## SPRING

# Get Ready to Roll This Spring By Cleaning Up the Garage

NewsUSA

(NU) - Sponsored News - As spring blooms and temperatures warm up, it's time to open up the windows and go outside. This means getting into your garage and dusting off the cobwebs from your lawnmower, wiping down your outdoor table and chairs, and getting your car primed to take you where you want to go this summer season.

According to experts, outdoor equipment such as trimmers, blowers, chainsaws and even patio furniture need some time and attention to get them ready for use after sitting all winter. This is especially true for cars that have borne the brunt of snow, ice, slush and other winter-related weather.

Here are some tips for getting your machinery, vehicles and outdoor equipment ready for summer use and entertaining:

- Get your lawnmower out of the corner of the garage. Wipe down all surfaces with a dry cloth, oil moving parts to ensure they are well lubricated, and make sure the blade is sharp. Sharp blades are better for your lawn and put less stress on the engine. If you added a fuel stabilizer like STA-BIL Storage prior to putting it away for the winter, it should start up smoothly. Should you have some hard starts, try a revitalizer like Start Your Engines! to get it revved up quickly.

- Prime your automobile. With the cost of driving at a six-year low, you'll want to take that long-overdue road trip this summer, so ensuring that your auto is in tip-top shape is paramount. According to the AAA, driving costs are affected by how well your vehicle runs, and that includes the inside and outside of your car. Performing regular maintenance can ensure more efficient operation and help prevent costly repairs. One way to save money is by detailing the car yourself using products such as

**Time for a Spring Spruce-Up.**

303 Automotive Protectant to protect interior surfaces from cracking and fading. Originally engineered for aerospace and aviation applications, 303 Automotive Protectant safeguards against harmful UV rays that can cause discoloration. In addition, it keeps surfaces looking newer, leaves a dry matte finish so there's no oily feel, and helps repel dust. For the exterior, consider 303 Automotive Speed Detailer, which will instantly clean, protect and give your car a showroom shine. It's a great way to keep your car cleaner between washings. And at every fill-up to keep the engine running smoothly, use STA-BIL 360 Performance, a fuel treatment that protects your engine above and below the fuel line to keep your engine running cleaner, stronger and with greater performance.

- Assess your outdoor furniture. No matter what material your outdoor furniture is made of, start by wiping down the surfaces. Plastic furniture, if left uncovered all winter, may just need a little soap and water to remove any dirt. To protect your outdoor furniture's hard surfaces from harmful UV Rays, apply a layer of 303 Protectant. You'll also want to protect your fabrics from water and other debris, so try 303 Fabric Guard.
