Have a Blast This Spring Break With These Must-Have Necessities

NewsUSA

(NU) -Spring is right around the corner, and after months of being locked inside from the cold winter weather, it's time to get out and have some fun in the sun! Whether it's at the beach, traveling somewhere new, or just spending time with family and friends, spring break is the perfect time to get out and enjoy yourself in the warm weather.

To make sure you capture every moment and have a blast while doing it, these must-have items have got you covered:

- **Enjoy the ride.** Get pumped up for the warm weather with Vivitar Bluetooth Earbuds, perfect for streaming and listening to music wirelessly while you travel to your spring-break destination. Compatible with iPhones, iPads, smartphones, and tablets, these earbuds also feature a built-in mic to manage phone calls on the go, and a rechargeable battery to allow for up to five hours of talk time. Removable ear gel fins are also included, so you can enjoy your favorite tunes during sporting activities, sunbathing, your morning run, and more!

- **Shoot in any conditions.** With the Polaroid iS048 Waterproof Digital Camera, you can take photos of your adventures anywhere, including up to 10 feet underwater, something your smartphone can't do. The camera features a 2.4-inch preview screen and has 16 megapixel resolution with high-quality still images and video recordings. It's available at www.polaroid.com.

- **Rock out.** Who needs an 80s boom box when you have an Altec Lansing Boom Jacket2 Bluetooth Speaker to listen to your jams? The speaker's Bluetooth interface and NFC (near-field communication) technology lets you stream music from select devices from up to 50 feet away. And if you're worried about water or sand getting in the way of enjoying your tunes, don't be. This speaker is water-, sand-, and shock-proof. It also accepts voice commands and features spoken caller ID, with a lithium-ion battery that provides up to 40 hours of battery life on a full charge. The

The Lifeguard Waterproof Universal Pouch will keep your smartphone dry, no matter where your adventure takes you.

speaker even doubles as a power bank, so you can charge devices while you're on the go.

- **Stay charged up.** No matter where you go – be it on spring break in Cancun, a day at the park, or a simple barbecue in your own backyard – you won't want to miss a moment, which means you'll need to keep all your electronic devices charged. To that end, consider a reliable and durable charger such as the Altec Lansing Rugged Apple Lightning Cable. This cable is directly compatible with all Apple devices, and is engineered with protective material that shields it from the usual wear and tear, including six feet of spring coil that ensures that your cable never breaks or frays. It provides fast and easy connection when plugged into any USB wall and/or car charger.

- **Catch some waves or hit the slopes.** So whether you're heading to the beach to ride some waves or taking one last run down the mountain this season, you don't have to worry about your phone. The Lifeguard Waterproof Universal Pouch fits a variety of different iPhones and Android models. This pouch fits comfortably around your neck, guarding your phone from any possible damage caused by water, snow, dust, or dirt, leaving it working like new no matter how tall the waves, or how high the mountain.

With spring break just around the corner, rest assured that wherever your trip takes you, these products will be just what you need to have the best time possible.
